Tree Inspector	DM	Date: 6 th July 2023

Site

The trees T1 & T2, as seen in the photographs and marked on the aerial, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Tottenham Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1 Holly: Reduce by 2-3m in height and up to 1m from lateral branches to shape

Reasons: Poor form, routine maintenance

T2 Koelreuteria: Reduce by approx. 2m from height and width to shape

Reasons: To control shape and maintain size, allow more light into garden.

Issues

I hold no objections to the proposed reasonable works. The specification is within good arboricultural practice and husbandry.

From the photographs the *Koelreuteria paniculate* tree appears to have a seam at the base (photographs are not too clear).

Recommendation

No Objection
