Tree works proposed:

Rear Garden with No Side Access:

T1 - XXXL Oak Tree (0.92+ DBH)

Upon inspection we noted a mature oak tree growing within the rear garden area of 64 Grove Park Road. The spread of the crown covers approximately 5 gardens with multiple sheds and outbuildings below. We Advise: Crown reduce by 3m and remove all major deadwood.

Reason for works: Works to be undertaken to remove dead branches to improve form and increase safety, also to increase light and air penetration for plants below the tree's crown and the adjoining property.

Issues

I hold no objections to the proposed reasonable tree works.

The tree has been reduced before and responded well by restoring its crown.

The specification is within good arboricultural practice and good husbandry.

Recommendation

No Objection
