Tree Inspector	DM	Date: 26 th July 2023

Site

The trees T1 Hornbeam and T2 Sycamore, as shown on the plan, are situated in the rear gardens of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 - Hornbeam: 11m spread, 13m height; Too large for site, touching building, heavy shade, low crown; Crown reduce by 2m (to leave crown spread of 7m) and crown lift to 3m.

T2 - Sycamore: 12m spread, 14m height; Too large for site, heavy shade, co-dominant stems & included bark; Crown reduce by 2m (to leave crown spread of 7m) and crown lift to 3m.

Issues

I hold no objections to the proposed pruning works.

There was some confusion regarding the specification but the agent has since confirmed that these are overall up to 2m crown reductions.

This specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
