Tree Inspector	DM	Date: 31 st July 2023

Site

The various trees T1- T3, as marked on the plan, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Holly (T1) - reduce crown by 2-3 feet all round

Smoke bush (T2) - prune back to previous cuts (2m off)

Laurel (T3) - prune back to previous cuts (1-1.5m off)

To let more light into the garden and allow installation of a garden fence.

Issues

I hold no objections to the proposed reasonable pruning works. Some of the works have been carried out before and all generally respond well to such works.

The specification is within good arboriculture practice and husbandry.

Recommendation

No Objection
