I write in regard to the application for extended opening hours of Noya restaurant.

The application states that it will keep the front doors closed to avoid excess noise escaping out on to West Green Rd. However it fails to comment on the substantial retracting roof that covers the rear terrace. This is a large space at the rear of property backing onto residences, which when the roof is open is akin to a beer garden. There is no reference to how noise is being managed from this open air space.

The venue presents more like a bar/club than a restaurant.

Secondly there is no reference to the consideration of customer parking. Due to the size of the restaurant it must be assumed that some customers will drive to visit the restaurant. Increasing the number of cars parked on surrounding streets such as Waldeck Road. Meaning people will be coming and going to these cars at even later times in the evening causing noise disturbances to those people living on surrounding streets.

We are in support of new restaurants/ businesses in the area but as long term residents with young children we need assurance that this venue is considerate of its neighbours and is acting with its local community in mind.

Sianann Tait (Waldeck Road Resident)
