Site

The Cherry and Birch trees are situated in the rear communal garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T003 No Tree Tag Cherry (*Prunus* sp. Cherry Fell to ground level (Section fell) and treat stump

T004 Tree Tag Number 0135 Silver Birch (*Betula pendula*) Co-dominant stem Crown close to building Significant lean Prune to clear building by 2m

Plus mapping and photos.

Issues

I hold no objections to the proposed tree works. The cherry is dead.

There is a condition to re plant dead, dying, and dangerous trees within a Conservation Area.

The pruning of the Birch tree is within good arboricultural practice and husbandry.

Recommendation

No Objection

Condition: Re plant 10-12cm girth *Betula* spp.
