Site

The three Maple trees, marked T001 on the plan and seen in the photograph, are situated in the communal garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Tottenham Central Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T001 No Tree Tag "Norway Maple x3 (Acer platanoides) Bark damage/wound, Crown close to building, Previously reduced. Fair condition. Reduce crown of all 3 trees to previous reduction points and shape (reduce trees by approximately 2m to 3m)

plus mapping and photos.

Issues

I hold no objections to the reasonable repeat pruning works.

Maples generally respond well to such works and will restore their crowns.

Recommendation

No Objection
