MONTA

One platform for chargepoint
owners & EV drivers.

EV charging solutions for BUSINESSES

Monta gives your business the flexibility it needs to adapt to the growing needs of the modern EV driver. Offer an easy charging experience on your premise and unlock additional revenue streams, all while reducing your CO₂ output.

Monta is the operating platform powering the EV ecosystem

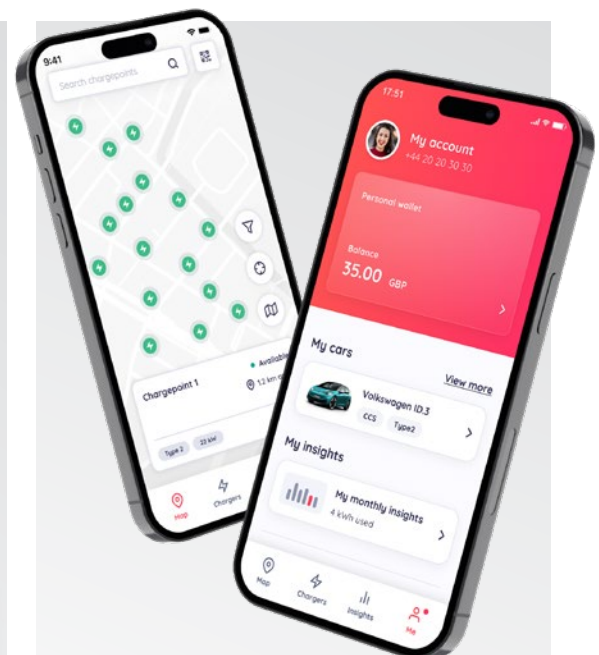

Monta Portal

World-class back office software for chargepoint owners

The Monta platform is a state-of-the-art, legacy free EV charging back office system for managing and operating chargepoints. It's easy to use, set up and scale.

The platform is packed with features developed for you to easily manage your business without having to incur any of the costs associated with developing a back-office, phone app, secure payment and management platform.

Monta App

Charge your EV on your terms.

With Monta you have full control over your charging experience, at home or on the road.

Monta product features

Set different pricing

Manage chargepoints on an individual level and decide pricing for different groups.

Payment options

Pay with Google Pay, Apple Pay, credit card, team wallet or charge key.

Scheduled pricing

Schedule price changes that automatically occur at specific hours. This helps avoid losing money when electricity is expensive.

Member fees

Apply a monthly fee to be part of a team. Each member must pay this, in order to charge at the team's price.

Public & private

Reserve chargepoints for members during peak hours. Open chargepoints to the public off peak hours.

EV Roaming

Chargepoints connected to Monta are available on many other EV charging apps. Attract more drivers by being available where EV drivers are.

Charge on the road

Get access to more than 260,000 publicly available chargepoints and pay with your preferred payment option.

Smart charging

Set chargepoint to only charge at times when conditions are met, such as low electricity price, low CO₂, or high amount of renewable energy.

Smart queue

An intelligent queueing system that distributes EVs between chargepoints when they become available. Once it's your turn you get a notification.

Chargepoint customisation

Customise your chargepoint settings to suit your needs; choosing who can access the chargepoints, and at what price.

Scalable solution

Add or remove chargepoints and users through our platform. You can scale up and down as you please.

Load balancing

Static, Dynamic or True Dynamic options to distribute the electricity in a smart way. No need to buy expensive extra ampere.

Smart booking

Reserve a chargepoint to make sure you're not driving to occupied chargepoints. Once a chargepoint is reserved, only you can start it.

Self-healing algorithms

Self-healing algorithms ensure charger stability and availability. Self-healing automatically fixes CP bugs and errors.

Scheduled access

Reserve chargepoints for members during peak hours. Open chargepoints to the public off peak hours.

Sponsored chargepoint

Employees can charge at home on their company account, thereby avoiding the need to receive money on slow intervals.

Car integration

Integrate your car with Monta to see the current battery level, whether the cable is plugged in or if your car is being charged.

Dynamic pricing

Allows operators to set their kWh price based on the hour-by-hour price that they're paying for electricity, and not on a statistic number.

Segment users

Control members, guests and other EV drivers' chargepoint access and usage.

Easy bookkeeping

Track payments, billings and expenses directly in the Monta Wallet.

Commercial

Monta enables EV drivers to charge at your retail location with ease. List your commercial property on the Monta network and attract new customers to your stores.

Maximum flexibility, zero administration

Monta gives you a modular, simple, and reliable charging management solution while eliminating admin work.

- Choose between private or public access
- Set different pricing for any customer segment
- Enable queuing for maximum chargepoint use
- Flexible pricing by time of day

Increase customer loyalty with custom incentives

Monta's wallet and vouchers allows you to create incentives for your customers.

- Create custom vouchers for your different customer segments
- Offer free or discounted charging for your most loyal customers
- Give out charge keys as rewards
- Real time overview of your expenses and chargepoint activity

Simplified EV charging

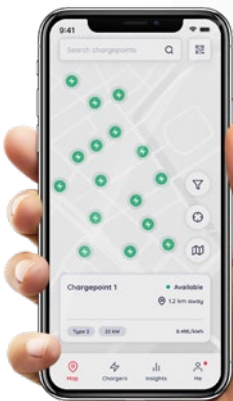

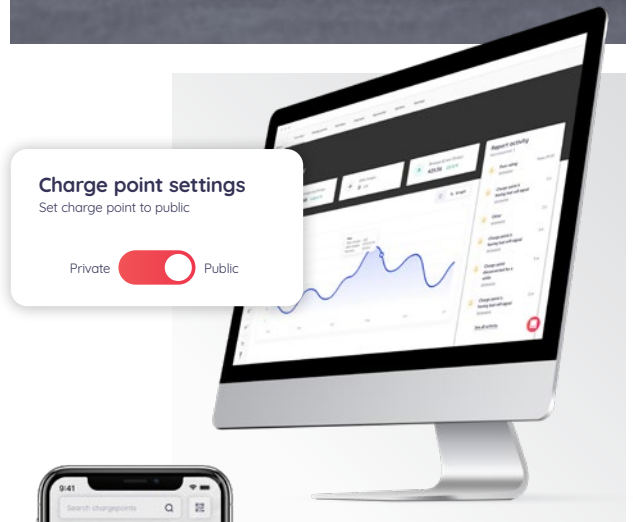

Charging on the Monta platform is easy and accessible.

- Your chargepoints are visible on the Monta network
- App Clips and Instant Apps allow non-Monta users to charge
- Ultimate flexibility thanks to multiple payment options

Offer a superior charging experience

Keep your customers happy with a great charging experience combined with terrific service.

- Everyone can see when a chargepoint is available
- EV drivers can reserve chargepoints as needed
- Market leading chargepoint stability of 98%
- Users can access Monta's 24/7 chat support

Reserve charge point
Book charge points at a time that suits you the best!

Workplace

Stop wasting time and resources on EV charging management. Monta gives you full control over employee charging needs while automating and streamlining repetitive admin work.

Maximum flexibility, no administration

Monta gives you complete control over your workplace charging points while eliminating admin work.

- Choose between employee or public access
- Create teams of employees with private EVs
- Set custom pricing for each team
- Reimburse home charging for employees

Offer a superior charging experience

Keep your employees happy with a streamlined charging experience combined with great service.

- Chargepoint booking and digital queue system
- Easy payments via all payment options
- 24/7 customer support

Save more by charging smarter

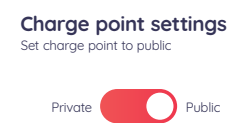

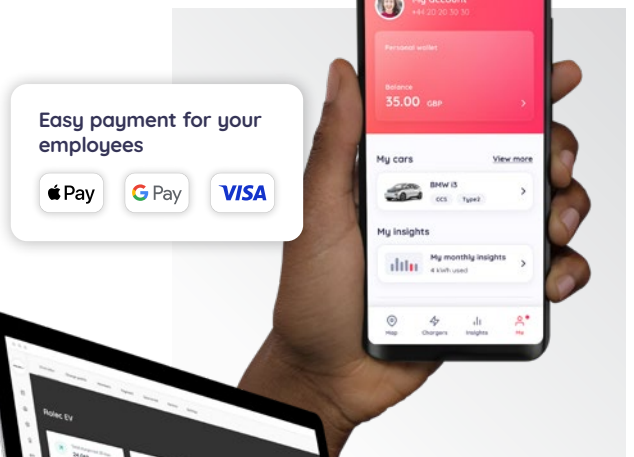

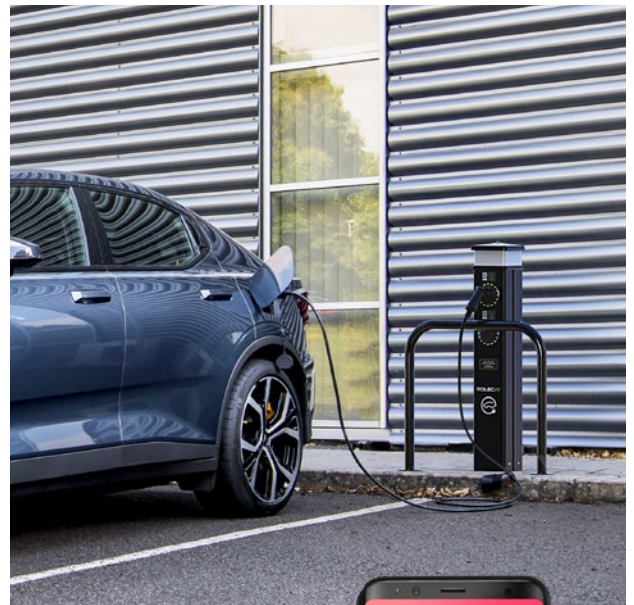

Reduce workplace EV charging costs and employee CO₂ emissions.

- Queuing with live status updates
- Reduce costs and CO₂ with Smart Charge
- Real insights based on your charging patterns

Built for the future

Monta makes scaling easy and adapts to your current or future workplace EV charging needs.

- Give access to employees with ease
- Set up new chargepoints in minutes
- Market-leading load balancing options

Fleet

Monta supports the charging needs of electric fleets of all types and sizes. Keep your EV fleet on the move with our complete EV fleet management solution.

Complete control and flexibility, zero administration

Monta helps you stay in full control of your fleet while eliminating tedious admin tasks.

- Fleet drivers can reserve chargepoints
- Keep your EV fleet always charged with priority load balancing
- Monta supports zero-emission fleets of any size and type

The only true solution for keeping your EV fleet on the move

Monta ensures your EV fleet is ready whenever your drivers are.

- Integrate vehicles in the back-office to show their battery size, SOC (State of charge), charged percentage, location and other details
- Pair an individual user with one vehicle or share it with different users
- Over 350+ vehicle models integrated

Unlock the best-in-class EV charging experience

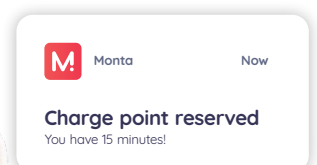

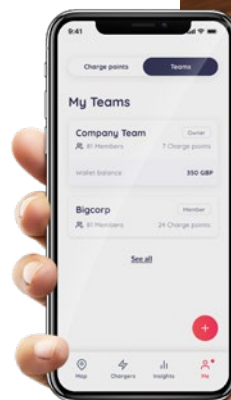

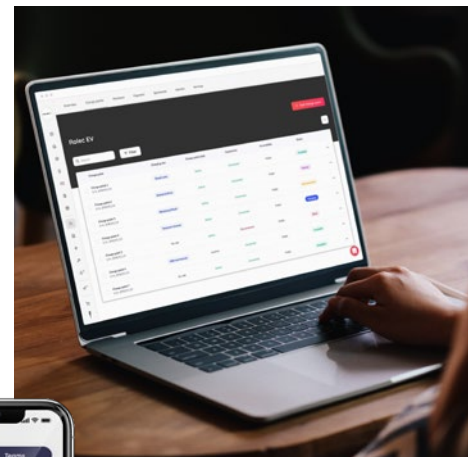

Keep your employees happy and charged with great features.

- Access 260,000+ chargepoints in our roaming network
- Eliminate range anxiety with booking and queuing
- Market-leading charging stability of 98%
- 24/7 customer support ready to help

Simple, scalable solutions

Monta ensures that your EV fleet operation is ready for today's needs, while also provides a solution that scales for future requirements.

- Invite employees with ease
- Set up new chargers as needed
- Full dynamic load balancing

Residential

All housing communities can benefit from Monta's EV charging management solution. Monta makes it easy to maintain chargepoints. Increase resident satisfaction and property value with minimal administration, no matter the size of your community.

Automate your admin tasks

Monta eliminates repetitive tasks by automating EV charging for your residents.

- Toggle between private and public access
- Decide who can charge and how much they pay
- Easy payment methods for residents and guests

Help out your local community

Share your chargepoints with other EV drivers and earn money on every charge.

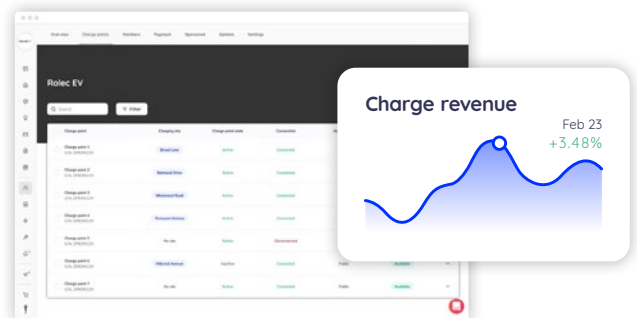

- Receive payments instantly after a charge is finished
- Manage all finances in a single, centralised system
- Choose from different payment methods

The best EV charging experience for residential needs

With Monta, operating residential charging stations is simple and straightforward.

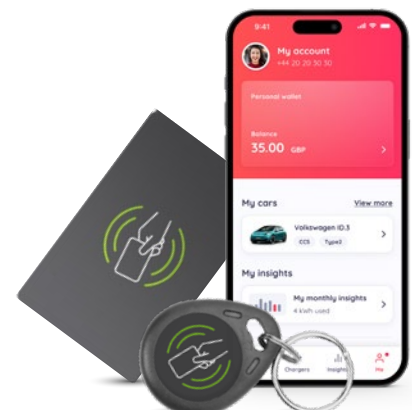

- New EV drivers can set up accounts in seconds
- Industry-leading 98% charge rate success
- 24/7 chat support from Monta

A future proof solution from the get-go

EV charging is becoming a key thing for tenants who have EVs.

- Fulfil the EV charging needs of your residents
- Install charging points wherever you need them
- Maintain full control of payments, automatically

Home

Charge your EV on your terms. With Monta you have full control over your charging experience, at home or on the road.

The Monta app is 100% free with no subscription cost when charging at home

Complete control over your home chargepoint

Charge smarter with Monta: The ultimate companion app for your Rolec home charger.

- With Monta, you can remotely control your home charging
- Easily share and give charging access to friends, family and guests
- Set your charger to public with custom schedules and pricing
- Get charging statistics on kWh, electricity pricing, CO₂ and more

Smart Charge to save money and charge greener

With Monta's app, your chargepoint becomes truly smart. We use electricity pricing and emission data to help you save money, and help the environment in the process.

- Plug your car in and Smart Charge will only charge your car when electricity is cheapest or cleanest
- Set how much to charge and until what time, and Monta takes care of the rest
- Enable Auto Smart Charge and Monta will remember your settings, so you just need to plug in your car when you get home

Seamlessly integrate your EV

Monta can easily integrate with most EV manufacturer apps and cars.

- Integrate your car and Monta will get real-time information about the state of charging and battery levels
- Eliminate repetitive set-ups for battery level or kWh calculations
- Monta offers real-time information on your car to maximize your charging experience

Transparent & flexible pricing

Monta is the software you need to get the most out of your chargepoints. Get started for free with up to 3 chargepoints or manage thousands via our web portal.

Ideal for small businesses and homes.
Max. 3 chargepoints

Best for medium to large scale charging across multiple sites and the full user experience.

Enterprise security ⁸		✓

- Only for admin / owners of teams / operators
- This Smart queue feature enables EV drivers to join the virtual queue at one of multiple charging sites and allows drivers to get notified when the chargepoint becomes available for them
- Load balancing is the distribution of power between the different points of consumption. In other words, Monta automatically divides the available power over the vehicles that are charging
- Member fees, select chargepoints access
- In your teams wallet you can see the transactions from and to the wallet and export the list of all the transactions
- Relevant for companies reimbursing its employees for charging at home
- Share your chargepoints on the world's largest roaming platform Hubject - 12.5% transaction fee
- Enterprise security features: audit log, ip whitelist, 2factor / saml

Pricing examples

If connected via Ethernet or Wi-Fi no cellular data fees will apply.
