Site

The Sycamore tree T1, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Sycamore (T1): Reduce to previous, most recent pruning points (approx. 2-3m branch length).

Issues

I hold no objections to the reasonable proposed repeat operation tree pruning.

Sycamores generally respond well to such works.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
