Subject: Current State of ASB at the site

Additional comment related to Planning Application: HGY/2023/1208

Whilst the planning application is under consideration, anti-social behaviour in and around the site continues. In addition to vandalising the perimeter fence of London Underground and fly tipping of soil and rubbles from building sites, now more graffiti are spilling over to neighbouring properties. It starts appearing on the newly erected wooden fence of library and then on to the construction barrier-fence of Library. The approval of this sort of planning application will exacerbate the situation.
