Site

The Conifer trees T1, T2, and Ash T3, as marked on the plan and seen in the photographs, are situated in the rear garden of the property. They are publicly visible between the detached structures from street level.

A site visit was deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Noel Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

My client would like to reduce 2x Conifers by 3.5m in height (T1+T2 on map). They would also like to reduce 1x Ash tree (T3) by 1.5m leaving lots of growth for privacy.

Issues

I hold no objections to the proposed tree works.

The removal of the apical growth from the conifers will curtail growth. Both trees are close to the structure.

The specification and works to the Ash is within good arboricultural practice and husbandry.

Recommendation

No Objection
