Site

The various trees T1- T7, as marked on the plan and seen in the photographs, are situated in the rear communal grounds of the property. They are publicly visible from Fortismere Avenue.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Muswell Hill Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Fortis Court - Communal Area

T1: Ash (17m): Crown reduce to previous points removing 3-4m of re-growth to keep tree at size suitable for its location and as part of regular maintenance

T2: Laburnum (7m): Crown lift by 0.5m to clear roof

T3: Ash (17m): Crown reduce to previous points removing 3-4m of re-growth to keep tree at size suitable for its location and as part of regular maintenance

T4: Ash (16m): Crown reduce to previous points removing 3-4m of re-growth to keep tree at size suitable for its location and as part of regular maintenance

T7: Lime (15m): Re-pollard to previous points removing 2-3m of growth to keep tree at a size suitable for its location and as part of regular maintenance.

Issues

I hold no objections to the reasonable repeat pruning works.

The specification is within good arboricultural practice and husbandry.

Ash generally respond well to such reductions.

Recommendation

No Objection
