Site

The various trees listed above, and seen within the submitted report, are situated in the grounds of the property. Being Church land they are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

S4 Buddleia Fell and treat stump with eco plugs

T12 Apple Fell and treat stump with eco plugs

T14 Apple Fell and treat stump with eco plugs

Issues

I hold no objections to the proposal to remove the above as they are low grade and not worthy of a Tree Preservation Order.

However, this has been submitted as a subsidence case.

The following has not been presented:

- BRE category and photographs of cracks
- Full soil investigation
- Level monitoring results

Local Planning Authorities are evidence led. Any future cases will require these.

Recommendation

No Objection
