Site

The Lime T1 tree, as seen in the photograph and marked on the plan, is situated in the rear garden of the property. It is publicly visible from Osborne Road.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Lime: reduce by circa 2m back to previous points of reduction

Reason: Routine maintenance.

Issues

I hold no objections to the proposed reasonable repeat works. The pruning is back to the most recent previous points.

The specification is within good arboricultural practice and husbandry.

The practice is common on Limes. Limes generally respond well and restore their crowns over a short period of time.

Recommendation

No Objection
