## **Site**

The Birch & Holly trees T1, and T2 as marked on the plan and seen in the photographs, are situated in the front and rear garden of the property. The Birch is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed.

T1- Silver Birch tree in front garden- (18m)- crown reduction back to most recent pruning points leaving short furnishing growths (approximately 4m reduction).

T2- Holly tree- (8M)-Lift crown to approximately 2m from ground level, prune in overlong branches, shape crown, prune left side (sparse branches) back from garden of number 66.

## **Issues**

I hold no objections to the proposed tree works.

The Birch, is located close to the property, and has been reduced a few times.

Pruning to the Holly is standard works

## **Recommendation**

**No Objection**
