Site

The Laurel S1 tree, as marked on the plan and seen in the photograph, is situated in the garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

S1 Laurel(Bay) - Fell and treat stump with eco plugs - To combat subsidence

Issues

I hold no objection to the removal of the Laurel. Not because it is implicated in indirect damage but because the Laurel is not worthy of a tree preservation order.

No soil analysis or level monitoring results have been submitted. Local Planning Authorities are evidence led and will require this information in future for any further works.

Recommendation

No Objection
