Site

The various trees, shrubs, hedges, and climbers T2-T8, as marked on the plan and seen in the photographs, are situated in the front and rear garden of the property. They are publicly visible in the front garden.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.
