Site

The Cherry tree, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is publicly from Courtside visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Cherry tree in rear garden

Reduce back to previous reduction points.

Issues

I hold no objections to the proposed reasonable repeat works.

The tree has good vigour and vitality and should replace its crown over a short period of time.

From Google Street View it is evident that the Cherry has tight forks at the union.

Recommendation

No Objection
