Site

The Lime trees T3-T6 are situated in the front garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T3, T4, T5, T6 Limes re-pollard to most recent pollard points, approx. 2m of regrowth to be removed.

Cyclical maintenance.

Issues

I hold no objections to the proposed reasonable repeat pruning works to the line of pollards.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
