We are the residents of **Flat 1-11, 734 -744 Lordship Lane Wood Green London N22 5JP.**

We all wish to support this application (HGY/2023/1749) for the reason of putting this land into a manageable use. As at its present use courses unsightly problems of litter and dumping as well as meeting point for undesirable people which courses many fights and loud arguments. We believe by granting planning permission this land would be managed continuously by people who will stop these sorts of activities including the stopping of littering.
