BY HAND.

17th August 2023

Dear Sirs

24 Cholmeley Crescent N6 5HA

HGY/2023/2121

My wife and I own the house immediately adjoining no. 24 which, it has recently come to my attention, is the subject of a planning application for demolition and redevelopment.

The public register states that the valid date of the application was 4 August and the consultation period ends on 29 September 2023. It also lists 47 neighbouring properties-including my own - as having been consulted.

So far as I can ascertain, as of yesterday none of my neighbours has received a consultation letter. Nor is a notice of the application on public display outside the property.

Moreover, according to the register there are no comments on the application and I and several others have found it impossible to make such comment.
It appears there may be a fault on your IT system.

I should therefore be grateful if you would confirm that the formal consultation period will not start to run until all the letters mentioned have been sent, a public notice has been displayed outside no. 24 and the ability to make comments has been restored.

Yours faithfully

NJ Rose
