

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2023/1821
Application type	Conservation Area Notification
Site Address:	Cemetery Offices, Tottenham Cemetery, Church Lane, Tottenham, London, N17 7AA
Proposal	1 dangerous leaning Cedar tree, by pond area, root plate has shifted, in poor condition, fell to ground level.

RECOMMENDATION:	No Objection	
Application date	10/07/2023	
Tree Inspector	DM	Date: 25 th August 2023

Site

The Cedar *Cedrus* spp. tree, as seen in the photographs, is situated in the grounds of the cemetery. It is publicly visible.

A site visit was deemed necessary to determine the appropriateness of the proposed works (22/08/2023).

The location is also within the Bruce Castle Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

1 dangerous leaning Cedar tree, by pond area, root plate has shifted, in poor condition, fell to ground level.

Issues

I hold no objections to the removal of the mature leaning Cedar tree.

I attended site twice and was unable to locate the tree the first time (it was marked wrong on the map.)

The submitted photographs were also inadequate to determine the condition.

On meeting the applicant on site and locating the tree it was noted:

- The tree has shifted in the ground and is at a 45% angle
- There is no perpendicular self-corrective growth this shows that the lean is recent
- The root bole has lift a distance which is six times the diameter of the trunk (major roots no longer supporting)
- Stamping on the ground voids were present

For safety reasons, works should be scheduled as soon as possible.

There is a condition to re plant dead, dying, and dangerous trees in a Conservation Area.

Recommendation

No Objection

Condition: Re plant 10-12cm girth *Pinus nigra*
