

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2023/2304
Application type	Conservation Area Notification
Site Address:	30 Cholmeley Crescent, Hornsey, London, N6 5HA
Proposal	Five day notice to fell a very almost dead weeping cherry tree at 30 Cholmeley Crescent N6. There is extensive decay at the base of the tree, indicated by the Ganoderma in the photos. Most the tree is dead, and because of the shape and form I'm concerned large branches will fail shortly. A branch failed on a still evening a few weeks ago. Please see the attached photos. The tree owner will replant with another deciduous tree - probably magnolia.

RECOMMENDATION:	No Objection	
Application date	25/08/2023	
Tree Inspector	DM	Date: 25 th August 2023

Site

The Cherry tree is situated in the front garden of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Five day notice to fell a very almost dead weeping cherry tree at 30 Cholmeley Crescent N6. There is extensive decay at the base of the tree, indicated by the Ganoderma in the photos. Most the tree is dead, and because of the shape and form I'm concerned large branches will fail shortly. A branch failed on a still evening a few weeks ago. Please see the attached photos. The tree owner will replant with another deciduous tree - probably magnolia.

Issues

I hold no objections to the dying Cherry tree being removed under a Five Day Notice.

The description above is self explanatory and from the photographs I concur.

There is also a large canker within the crown.

There is a condition to re plant dead, dying, and dangerous trees in a Conservation Area. The resident has chosen a Magnolia. This is satisfactory and suitable.

Recommendation

No Objection

Condition: Re plant 10-12cm girth Magnolia or multi stemmed Magnolia
