Application for Tree Works: Works to Trees Subject to a Tree Preservation Order (TPO) and/or Notification of Proposed Works to Trees in a Conservation Area

Town and Country Planning Act 1990 (as amended)

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Tree Location

Please provide the address of the site where the tree(s) stands (full address if possible)

Number

37

Suffix

Property Name

Address Line 1

Southwood Avenue

Address Line 2

Hornsey

Address Line 3

Haringey

Town/city

London

Postcode

N6 5SA

Description of site location must be completed if postcode is not known:

Easting (x)

528631

Northing (y)

187866

If the location is unclear or there is not a full postal address, describe as clearly as possible where it is

(for example, 'Land to rear of 12 to 18 High Street' or 'Woodland adjoining Elm Road')

What Are You Applying For?

Based on the type of work proposed and the location and protected status of the trees involved, there are various details and supporting information that will need to be supplied in order for the Local Planning Authority to determine the application.

Are you seeking consent for works to tree(s) subject to a Tree Preservation Order?

- ☐ Yes
☒ No

Are you wishing to carry out works to tree(s) in a conservation area?

- ☒ Yes
☐ No

Documents and plans (for any tree)

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order.

A sketch plan is also advised when notifying the LPA of works to trees in a conservation area ([see guidance notes](#)).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Are you providing additional information in support of your application (e.g. an additional schedule of work for the question 'Identification of Tree(s) and Description of Works')?

- ☒ Yes
☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application

Formal CA notice letter
PRI Arb Report
Site Investigation Report
Engineers Report

Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out

Please accept this letter as our formal notification to undertake the works detailed below:

Tree Number (as per PRI plan)	Common name	Specification
T1	Monkey Puzzle	Fell and treat stump with eco plugs (broadleaved)

Reasons for this notification:

1. The above tree works are proposed as a remedy to the differential foundation movement at the above address and to ensure the long-term stability of the building.
2. The above tree works are proposed to limit the extent and need for expensive and disruptive engineering repair works.
3. The above tree works are proposed to limit the duration of any claim period and, therefore, allow the landowner his right to the peaceful enjoyment of his property.
4. It is the case that an alternative to felling T1 such as pruning or significant pollarding of the trees, would not provide a reliable or sustainable remedy in this case.
5. We do not consider that any other potential means of mitigation, such as root barriers, would be effective or appropriate in the circumstances.
6. The above tree works are proposed to limit the extent and need for costly CO2e emissions relating to alternative engineering repair works at the insured property. A typical underpinning scheme can include a carbon cost of more than 6000 kg CO2e and soil stabilisation or root barriers more than 4000 kg CO2e. A typical tree might capture between 15-40kg CO2e per annum and would therefore take centuries to mitigate the cost in CO2e on any alternative. We also confirm that the applicant has included this scheme and notification in its tree planting and carbon capture off-set scheme for trees causing subsidence to low rise buildings which has already seen some 11,000 trees planted and additionally 220 tonnes of carbon captured.

Please provide your formal acknowledgement of this notification, indicating the date of its registration and the date that any decision would in your view, be due.

Please quote our reference number 270373 in all correspondence.

Insurers have no requirement to offer replacement planting in the circumstances of this notification being within a Conservation Area but Insurers are not unaware of the significance of the proposal in landscape terms.

Alternatively you should note that the applicant has automatically enrolled this scheme and notification in its tree planting and carbon capture off-set scheme for trees causing subsidence to low rise buildings which has already seen some 11,000 trees planted and additionally 220 tonnes of carbon captured.

Should you wish to visit the risk property, please contact us in order that we may arrange suitable access. We trust that the above information is of assistance, but should you have any queries please do not hesitate to contact us.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see below for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan; and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) – Whole crown reduction to 12m above ground level, to provide sufficient clearance to property.

Sketch plan requirements

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
 - mark and name surrounding roads
 - sketch in buildings, including adjoining properties
 - add house numbers or names
- mark the position of the tree(s) to which you want to carry out work and identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
 - marking all trees on the plan, but only numbering those to which you want to carry out work
 - showing the approximate distance between the application tree(s) and buildings
 - adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

Tree Ownership

Is the applicant the owner of the tree(s)?

- ☐ Yes
☒ No

If No, please provide the address of the owner (if known and if different from the tree location)

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

Declaration

I/We hereby apply for Tree works: Trees in conservation areas/subject to TPOs as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.

I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.

I/We also accept that, in accordance with the Planning Portal's terms and conditions:

- Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;
- Our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration

Signed

Emma Whytefield
