Subject: Re: HGY/2023/2054

Here are the photos. We have pruned these trees for more than 10 years but thinking of reducing the Oaks a little lower for easier accessibility for climbing and to appease the neighbours. We won't change the over all shape dramatically. Picture 1 - Yews / picture 2 Oaks. No photo of historically pollarded chestnuts at front but can get one if required. We pollard them every 3 years.

Many thanks

Mark
