Subject: HGY/2023/2231 - Pavement Opposite 214-218 High Road, London N15 5BT

Hello Kwaku,
Transport comments are as follows:

- a. The proposed installation of a communication hub with digital advertisement panel will adversely impact on pedestrian amenity by increasing street clutter along the footway.
- b. The location of the proposed communication hub with digital advertisement panel will increase the distractions for all road users given the proximity to a busy junction, pedestrian crossing, station entrance, bus stop with advertisement panel and cycle lanes. It should also be noted there is an existing telephone box just to short distance to the south of the proposal – see below.

- c. A10 is a 'Red Route' and TfL should be consulted.

The proposals are not supported for the transport reasons outlined above.
Regards.
