Subject: Welcome to the NRMM website

You don't often get email from nrmm@london.gov.uk. [Learn why this is important](#)

[EXTERNAL EMAIL] This email originated from outside of Hill. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Damon,

Thank you for creating an account and welcome to the NRMM London Register. By creating your account you will now receive important information and updates regarding the NRMM Low Emission Zone.

As a verified user:

- you can register a construction site yourself, becoming the “site administrator” at that site. This will allow you to edit the site details, manage other site users, add machinery to the site and view/edit all machinery at that site.
- you can accept invitations to sites registered by someone else, becoming a “machinery administrator” at that site. This will allow you to add machinery to the site and view/edit all machinery at that site, but you will not be able to edit the site details or manage other site users.
- you can accept invitations to sites registered by someone else, becoming a “sub-contractor” at that site. This will allow you to add machinery to the site and view/edit your own machinery at that site, but you will not be able to view/edit machinery added by other site users, edit the site details or manage other site users.

You can have different roles at different sites all from the same account, so you do not need to create a new account for every site you work on.

A list of all the sites you have set up or have access to will appear on your dashboard when you login.

A practical guide for managing the machinery on site can also be found [here](#).

We hope you find the register to be a useful online tool and if you have any queries please get in touch via the [contact us form at the bottom of this page](#).

If you are a local authority or enforcement officer, please also use the contact us form so we can assign you the upgraded permissions level you need.

Kind Regards

The NRMM Team
