FW: HGY/2023/2267 - Elm Court, Cholmeley Park, N6 5EJ

While we are aware that these trees are not visible from the public highway, nevertheless, they give pleasure not only to the residents of Elm court, but also to the people living in Cromwell Road whose gardens back onto Elm Court.

T1 The magnolia does not appear to be 'suppressed', see photo and gives a great display in the spring. We can see no reason to fell this tree.

T2, We did not have time to look at this pear tree closely but it seemed in a reasonable condition. We would ask the Tree Officer to look at it and see if it is reasonable to fell it.

T3 We do not not object to the height reduction of lateral reduction but we believe that raising the crown to 5 metres might reduce the screening to the houses beyond the boundary.

We do not object to the work on T4, T5 and T6
