Site

The Sycamore tree T1643, as seen in the photograph and marked on the map, is situated in the public community grounds. It is not publicly visible as the tree is secluded.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Alexandra Palace Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Issues

I hold no objections to the surveyed Sycamore tree being removed due the direct damage implications, crack on the main stem, low grade and poor form.

Recommendation

No Objection
