Subject: Condition 31 D1 D2

Hi Valerie,

I think we have now assembled everything required to discharge Condition 31 for Blocks D1 & D2. I may have misrepresented our position previously as I was somewhat unfamiliar the information but can now clarify.

Verification of install of the HHSL for Zones 1, 2 & 3 are present with the Atkins report 5196431 Block D1 D2 Verification Report pages 41-48 uploaded to the portal on 06/07/2023.

We subsequently issued the D1-D2 Installed Soil Memo Rev A to provide photographic verification of install of the HHSL to zones 4 & 5. Following correspondence from Edward Ritchie on 25/08 we have updated this report, now Rev B which should address comments around the content. We have also attached the waste transfer note as requested. Can you please pass this on to Edward for a response.
