

## MEMORANDUM

### Via Email

To Matthew Pannett

Date 05/09/2023 - Rev B

From Chris Davis

**Subject: Clarendon Road Phase 3 – Block D1 & D2 Soil Verification**

---

Dear Matthew,

This memo has been produced by St William to accompany the submission of the soil verification report titled *5196431\_Block D1 & D2 Verification Report*, which has been issued to LB Haringey in support of the partial discharge of Condition 31: Land Contamination attached to planning permission HGY/2017/3117. This memo supersedes the initial Installed Soils Memo Rev A issued on the 16<sup>th</sup> of August 2023.

The Atkins report identifies five testing zones where installation of the HHSL is required and to be photo evidenced in accordance with the build-up noted in the Atkins remediation strategy. For zones 1, 2 and 3 this record is present within the Atkins report pages 41 to 48. At the time of witnessing for these areas zones 4 & 5 were not ready and so were subsequently completed by the landscaping contractor.

Overleaf is a key plan overleaf identifying the zones testing/HHSL zones and another identifying positions from where images have been taken. LB Haringey have requested that this updated memo Rev B be provided to yourselves and for your report to be updated to confirm that you have seen evidence of the HHSL installation for all areas.

Regards,

Chris Davis  
Senior Technical Manager

## Testing Key Plan
