PROPOSAL

The proposal is for the change of single-glazed timber windows for double-glazed timber windows.

REPRESENTATIONS

No representations were received in response to notification and publicity of the application.

REASONS FOR GRANTING PERMISSION

The subject site is a three storey residential building which forms part of wider terrace of approximately ten properties on the west side of Marquis Road. The site is located within Stroud Green conservation area however does not fall within the curtilage of a listed building.

The proposal seeks the replacement of windows on the front elevation. Currently the site is finished with single-pane timber sash windows. The proposed replacement windows would be double glazed however they would still be timber frame windows. The replacement windows are not expected to be different in appearance to the existing given their framing would not be significantly larger from the existing. Therefore, it would not result in any material harm against the local character and visual amenity of the area. The proposal is acceptable in amenity terms given the nature of the proposal.

The proposed development is in general accordance with Policies DM1, DM9, and DM12 of the Development Management, Development Plan Document 2017, and policies SP11 and SP12 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021 and the NPPF. The proposal would comply with Policy and will preserve or enhance the character and appearance of the conservation area.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above.
