REASONS FOR GRANTING PERMISSION

The subject site is a three-storey mid-terrace residential building that has been subdivided into 2 no. self-contained flats. The site is located within the Stroud Green conservation area and does not fall within the curtilage of a listed building. The surrounding area is predominantly residential character, whereby the majority of the buildings are terraces.

The planning history of the site has been taken into account when coming to this decision.

HGY/2022/3828 | Pending | Replacement of single-glazed timber windows for new fit for purpose double-glazed timber windows (to the front elevation) and double-glazed uPVC windows to the rear.

The proposed development is for the replacement of existing timber (part-glazed) front entrance door, with a new timber part-glazed three panel entrance door, to match the existing style and fenestration. It also includes the replacement of the existing felt flat roof covering (to the Ground Floor front bay windows) with a high performance felt roof covering new flat roof finish, to match existing colour, and renewal of lead flashing.

The new door would also improve the energy efficiency the building, which would improve the living conditions for the occupants. The proposed changes would give regard to the street scene and the surrounding conservation area.

The proposal is considered proportionate and subordinate to the host building and is in keeping with the pattern of development in the area. Therefore, the local character and visual amenity of the area will be protected.

No changes are proposed that would impact on the amenity of the neighbouring properties, and so there would not be an impact on sunlight or daylight, or have an overbearing appearance to the neighbouring property. There will be no material loss of privacy to neighbouring properties. The proposal is acceptable in amenity terms.

The proposed development is in general accordance with Policies DM1 and DM12 of the Development Management, Development Plan Document 2017, and policies SP11 and SP12 of Haringey's Local Plan Strategic Policies 2017. The proposed development also accords with the relevant policies of the London Plan 2021 and the NPPF.

The proposal would comply with Policy DM9 of the Development Management, Development Plan 2017 and will preserve or enhance the character and appearance of the conservation area.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above.
