Site

The three trees T1-T3, as listed above, shown in the marked photographs and the plan, are situated in the grounds of the property. They are publicly visible.

Due to the minor nature of the proposed works and the level of detail submitted in support of the notification, a site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Ash Small Fell to ground level Supressed form

T2 Acer V Large Reduce 3 lowest limbs on roadside by 1-2 metres and deadwood Over extended growth

T3 Acer Small Fell to ground level Supressed form & pronounced lean.

Issues

I hold no objections to the proposed works.

The specification is within good arboricultural practice and husbandery.

The fells are self-sets.

Recommendation

No Objection
