Tree Inspector	DM	Date: 28 th September 2023

Site

The Lime *Tilia* spp. trees, T1 & T2 as highlighted in the tree survey, are situated in the grounds of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The trees are protected by a Tree Preservation Order (TPO)

Proposal

Tree works proposed.

Proposed Pruning – Two Lime trees protected by TPO/2014/2553 are situated in the back garden running parallel to Cross Lane as per Tree Protection Plan (Appendix One), as per 1.1 the client would like to prune the Eastern laterals of T1 & 2 as per the attached image (Appendix Two). The aim is to make lowering and future removal of the cabins easier and to avoid any damage to the laterals of T1 & 2.

All works will be carried out following industry best practice and the recommendations in BS3998 2010.

Issues

I hold no objections to the proposed tree works.

The specification as shown on the image below is within good arboricultural practice and husbandry.

Lime trees have a good urban fitness and generally respond well to heavier pruning works such as reductions and pollarding.

The Arboricultural Method Statement dated 17th February 2023, in relation for the Planning case HGY/2020/1724, mentions minor facilitating pruning for conditioning.

Recommendation

No Objection

Red lines indicate approximate pruning points to avoid damage to T1 & T2 laterals whilst installing cabins in the garden of 69 High Street. For further detail please see covering letter
