Dear Mr McNaugher

Tottenham Hotspur Stadium

**Application to amend Condition B16 (Major Non-association Football Events) of
Planning Permission HGY/2015/3000**

Application Ref: HGY/2023/2041

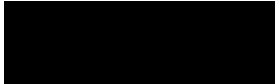

Further to our letter of 24 July 2023 enclosing the above application, I would like to take this opportunity to provide a further update on our engagement around the LAMP review process:

- The technical work is ongoing around the review (including the independent monitoring and any discussions with the police etc.) and although it is not of itself subject to public engagement, it is informed by ongoing public engagement through the BCLG and also through the briefing session we held with Members on the LAMP.
- The Business and Community Liaison Group (BCLG) serves as an ongoing public engagement on various LAMP matters and through the attendance of local residents; businesses; officers; and Ward Members, covers all key stakeholders. The terms of reference for the BCLG were drafted with this intention. It is through the BCLG that issues such as MED parking, toilet locations and queue management arrangements have been raised and improvements made in the implementation of the LAMP.
- Since the submission of this application, further BCLG meetings have been held on 15 August and 13 September with notes of those meetings distributed in the usual manner. The next BCLG meeting is provisionally scheduled for 18 October. LAMP issues are discussed at every meeting.
- The Club also continues to engage separately with the Tottenham Traders Partnership (TTP) on various issues, including the LAMP. The Club met with the TTP today.

- The 'Blue Book' is being updated to reflect proposed amendments to the LAMP; changes in circumstances (e.g. the stadium is now open); and operational changes that have taken place since the original Blue Book was originally published (e.g. the post-MED closure of WHL road). Once we have agreed any changes to the LAMP with the Council, we can complete the Blue Book review and consult upon it, before finalising and distributing the revised version.

I hope this is helpful and now look forward to the determination of this application.

Yours sincerely

Richard Serra MRICS MRTPI
Property Director
