## **Site**

The two Cypress trees, as seen on the plan, are situated in the rear garden of the property. They are publicly visible from Parham Way between the properties.

A site visit was deemed necessary to determine the appropriateness of the proposed works (17/08/2023 at approximately).

The location is also within the Alexandra Park Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed.

Cypress x 2 (16m): Reduce height by approximately 7-8m to keep trees at a size suitable for their location and as part of regular maintenance.

## **Issues**

I hold no objections to the proposed pruning works. The vigorous Leylandii trees are out of scale with the surroundings.

The reduction will allow the screen to remain and for the trees to be managed more easily in the future.

## **Recommendation**

**No Objection**
