Site

The Greengage tree T1, as marked on the plan and seen in the photograph, is situated in the rear garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Crouch End Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Reduce the height of the greengage (T1), removing most upright growth. Retain all lateral growth in the crown, to allow more light into garden.

Issues

I hold no objections to the reasonable sensitive proposed pruning works.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
