**TOWN AND COUNTRY PLANNING ACT 1990
TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE)
(ENGLAND) ORDER 2015
NOTICE OF PLANNING PERMISSION**

Case Reference HGY/2023/0630
Location 26 Sheldon Avenue, Hornsey, London, N6 4JT
Proposal Demolition of the existing house and erection of a new two-storey detached house with basement and loft areas. New front boundary treatment.
Received 3 March 2023

In pursuance of their powers under the above Act, the London Borough of Haringey as Local Planning Authority hereby PERMIT the above development received on the above date.

Title	Description	Date
Basement Impact Assessment – B2538/22/BIA/1 (Dec 2022)		3 March 2023
Basement Impact Assessment Supplementary Report Ref: 265-BIA-1001 (13/02.2023)		3 March 2023
Arboricultural Method Statement dated 07.06.2023 (Incl. Appendix 1 to 3)		7 June 2023
Arbtech AIA 01 A	Tree Survey	7 June 2023
Arbtech TPP 01 A	Proposed Tree Protection Plan	7 June 2023
26SA-PA-03-B - Proposed Ground & Lower Ground Floor Plans		28 September 2023
GLA Carbon Emissions Reporting Spreadsheet (Duplicate)		28 September 2023
26SA-PA-04-B - Proposed First Floor, Loft Floor & Roof Plans		28 September 2023
26SA-PA-05-B - Proposed Elevations		28 September 2023
26SA-PA-06-B - Proposed Sections		28 September 2023
Energy & Sustainability Statement 23.09.2022		28 September 2023
GLA Carbon Emissions Reporting Spreadsheet		29 September 2023

Robbie McNaugher

Robbie McNaugher
Head of Development Management and Planning Enforcement
Planning Service

Conditions: (12)

- 1** The development to which this permission relates must be begun no later than three years from the date of this decision notice, failing which the permission shall be of no effect.

Reason: This condition is imposed by virtue of Section 91 of the Town and Country Planning Act 1990 and to prevent the accumulation of unimplemented planning permissions.

- 2** The development hereby permitted shall be carried out in complete accordance with the approved plans and drawings listed in this decision notice, other than where those details are altered pursuant to the conditions of this planning permission.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 3** The following details shall be submitted to, and approved in writing by, the Local Planning Authority before any above ground development is commenced:
 - Material specification and material samples of new roof tiles to entire roof.
 - Material specification and material samples of new bricks to entire building and new front wall.
 - Detailed design drawings to scale 1:20 and material specification of proposed dormers to both front and rear elevations.
 - Detailed design to scale 1:20 and material specification of new green roof to rear elevation.
 - Detail drawings of new window types to scale 1:10 and related material specification.
 - Detail design drawings to scale 1:10 and material specification of new pedestrian gate and new sliding gate to garage entrance.

Samples should be submitted with a schedule of the exact product references.

Reason: In order for the Local Planning Authority to retain control over the exact materials to be used for the proposed development and to assess the suitability of the samples submitted in the interests of visual amenity consistent with Policy D3 of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017 and Policy DM1 of The Development Management DPD 2017.

- 4** No development shall take place, including any works of demolition, until a Method of Construction Statement, to include details of:

- a) parking and management of vehicles of site personnel, operatives and visitors
- b) loading and unloading of plant and materials
- c) storage of plant and materials
- d) programme of works (including measures for traffic management)
- e) provision of boundary hoarding behind any visibility zones
- f) wheel washing facilities:

have been submitted to and approved in writing by the Local Planning Authority. Only the approved details shall be implemented and retained during the demolition and construction period.

Reason: To ensure there are no adverse impacts on the free flow of traffic on local roads and to safeguard the amenities of the area consistent with Policies T4, T7 and D14 of the London Plan 2021, Policies SP0 of the Haringey Local Plan 2017 and with Policy DM1 of The Development Management DPD 2017

- 5 The basement works hereby approved shall not commence until such time as a suitably qualified chartered engineer with membership of the appropriate professional body has been appointed to inspect, approve and monitor the critical elements of both permanent and temporary basement construction works throughout their duration to ensure compliance with the design which has been checked and approved by a building control body. Details of the appointment and the appointee's responsibilities shall be submitted to and approved in writing by the Council prior to the commencement of development. Any subsequent change or reappointment shall be confirmed forthwith and retained for the duration of the construction works.

Reason: To safeguard the appearance and structural stability of neighbouring buildings and the character of the immediate area in accordance with the requirements of policy.

- 6 5. Prior to the occupation of the development a scheme for the treatment of the surroundings of the proposed development including appropriate soft and hard landscaping has been submitted to and approved in writing by the Local Planning Authority. The development hereby permitted shall be implemented in accordance with the approved details.

Reason: In order to provide a suitable setting for the proposed development in the interests of visual amenity consistent with of the London Plan 2021, Policy SP11 of the Haringey Local Plan 2017 and Policy DM1 of The Development Management DPD 2017.

- 7 Before development commences other than for investigative work:
- a. Using the information already submitted in Geo-Environmental Site Investigation Report with reference B2538/22/GEO/1 prepared by Earth Environmental & Geotechnical (Southern) Ltd dated 22nd December 2022, an intrusive site investigation shall be conducted for the site using information obtained from the desktop study and Conceptual Model. The site investigation must be comprehensive enough to enable; a risk assessment to be undertaken, refinement of the Conceptual Model, and the development of a Method Statement detailing the remediation requirements.
 - b. The risk assessment and refined Conceptual Model shall be submitted, along with the site investigation report, to the Local Planning Authority which shall be submitted to, and approved in writing by, the Local Planning Authority prior to that remediation being carried out on site.
 - c. Where remediation of contamination on the site is required, completion of the remediation detailed in the method statement shall be carried out and;
 - d. A report that provides verification that the required works have been carried out, shall be submitted to, and approved in writing by the Local Planning Authority before the development is occupied.

Reason: To ensure the development can be implemented and occupied with adequate regard for environmental and public safety.

- 8 If, during development, contamination not previously identified is found to be present at the site then no further development (unless otherwise agreed in writing with the Local Planning Authority) shall be carried out until a remediation strategy detailing how this contamination will be dealt with has been submitted to and approved in writing by the Local Planning Authority. The remediation strategy shall be implemented as approved.

Reasons: To ensure that the development is not put at unacceptable risk from, or adversely affected by, unacceptable levels water pollution from previously unidentified contamination sources at the development site in line with paragraph 109 of the National Planning Policy Framework.

- 9 a. No works shall commence on the site until all plant and machinery to be used at the demolition and construction phases have been submitted to, and approved in writing by, the Local Planning Authority. Evidence is required to meet Stage IIIB of EU Directive 97/68/ EC

for both NOx and PM.

No works shall be carried out on site until all Non-Road Mobile Machinery (NRMM) and plant to be used on the site of net power between 37kW and 560 kW has been registered at <http://nrmm.london/>. Proof of registration must be submitted to the Local Planning Authority prior to the commencement of any works on site.

b. An inventory of all NRMM must be kept on site during the course of the demolitions, site preparation and construction phases. All machinery should be regularly serviced and service logs kept on site for inspection. Records should be kept on site which details proof of emission limits for all equipment. This documentation should be made available to local authority officers as required until development completion.

Reason: To protect local air quality and comply with Policy 7.14 of the London Plan and the GLA NRMM LEZ

- 10** The development hereby approved shall be constructed in accordance with the Energy and Sustainability Statement Rev 2 prepared by Green Tiger Sustainability (dated 22nd September 2023) delivering a minimum 81.2% improvement on carbon emissions over 2021 Building Regulations Part L, with SAP10.2 emission factors, high fabric efficiencies, air source heat pumps (ASHPs) and a minimum 7.02 kWp solar photovoltaic (PV) array.

(a) Prior to above ground construction, details of the Energy Strategy shall be submitted to and approved by the Local Planning Authority. This must include:

- Confirmation of how this development will meet the zero-carbon policy requirement in line with the Energy Hierarchy;
- Confirmation of the necessary fabric efficiencies to achieve a minimum 10% reduction in SAP10.2 carbon factors, including details to reduce thermal bridging;
- Location, specification and efficiency of the proposed ASHPs (Coefficient of Performance, Seasonal Coefficient of Performance, and the Seasonal Performance Factor), with plans showing the ASHP pipework and noise and visual mitigation measures;
- Specification and efficiency of the proposed Mechanical Ventilation and Heat Recovery (MVHR), with plans showing the rigid MVHR ducting and location of the unit;
- Details of the PV, demonstrating the roof area has been maximised, with the following details: a roof plan; the number, angle, orientation, type, and efficiency level of the PVs; how overheating of the panels will be minimised; their peak output (kWp); battery capacity.
- Specification of any additional equipment installed to reduce carbon emissions.

The development shall be carried out strictly in accordance with the details so approved prior to first operation and shall be maintained and retained for the lifetime of the development. The solar PV array shall be installed with monitoring equipment prior to completion and shall be maintained at least annually thereafter.

(b) The solar PV arrays and air source heat pump(s) must be installed and brought into use prior to first occupation of the relevant block. Six months following the first occupation of that block, evidence that the solar PV arrays have been installed correctly and are operational shall be submitted to and approved by the Local Planning Authority, including photographs of the solar array, installer confirmation, an energy generation statement for the period that the solar PV array has been installed, and a Microgeneration Certification Scheme certificate.

Reason: To ensure the development reduces its impact on climate change by reducing carbon emissions on site in compliance with the Energy Hierarchy, and in line with London Plan (2021) Policy SI2, and Local Plan (2017) Policies SP4 and DM22.

- 11** No dwelling shall be occupied until details of the location of a water butt of at least 120L internal capacity to be installed to intercept rainwater draining from the roof of each dwelling has been submitted to and approved in writing by the Local Planning Authority and subsequently provided at each dwelling. The approved facilities shall be retained.

Reason: To reduce the risk of flooding and demand for water, increase the level of sustainability of the development and in line with Haringey Local Plan Policy SP5, DM21, DM24 and DM25.

- 12** (a) Prior to the above ground commencement of development, details of the living roof must be submitted to and approved in writing by the Local Planning Authority. Living roofs must be planted with flowering species that provide amenity and biodiversity value at different times of year. Plants must be grown and sourced from the UK and all soils and compost used must be peat-free, to reduce the impact on climate change. The submission shall include:
- i) A roof plan identifying where the living roofs will be located;
 - ii) A section demonstrating settled substrate levels of no less than 120mm for extensive living roofs (varying depths of 120-180mm), and no less than 250mm for intensive living roofs (including planters on amenity roof terraces);
 - iii) Roof plans annotating details of the substrate: showing at least two substrate types across the roof, annotating contours of the varying depths of substrate

- iv) Details of the proposed type of invertebrate habitat structures with a minimum of one feature per 30m² of living roof: substrate mounds and 0.5m high sandy piles in areas with the greatest structural support to provide a variation in habitat; semi-buried log piles / flat stones for invertebrates with a minimum footprint of 1m², rope coils, pebble mounds of water trays;
 - v) Details on the range and seed spread of native species of (wild)flowers and herbs (minimum 10g/m²) and density of plug plants planted (minimum 20/m² with roof ball of plugs 25m³) to benefit native wildlife, suitable for the amount of direct sunshine/shading of the different living roof spaces. The living roof will not rely on one species of plant life such as Sedum (which are not native);
 - vi) Roof plans and sections showing the relationship between the living roof areas and photovoltaic array; and
 - vii) Management and maintenance plan, including frequency of watering arrangements.
 - viii) A section showing the build-up of the blue roof and confirmation of the water attenuation properties, and feasibility of collecting the rainwater and using this on site;
- (b) Prior to the occupation of 90% of the dwelling, evidence must be submitted to and approved by the Local Planning Authority that the living roof has been delivered in line with the details set out in point (a). This evidence shall include photographs demonstrating the measured depth of substrate, planting and biodiversity measures. If the Local Planning Authority finds that the living roof has not been delivered to the approved standards, the applicant shall rectify this to ensure it complies with the condition. The living roof shall be retained thereafter for the lifetime of the development in accordance with the approved management arrangements.

Reason: To ensure that the development provides the maximum provision towards the creation of habitats for biodiversity and supports the water retention on site during rainfall. In accordance with London Plan (2021) Policies G1, G5, G6, SI1 and SI2 and Local Plan (2017) Policies SP4, SP5, SP11 and SP13.

Informatives:

Prior to demolition of existing buildings, an asbestos survey should be carried out to identify the location and type of asbestos containing materials. Any asbestos containing materials must be removed and disposed of in accordance with the correct procedure prior to any demolition or construction works carried out.

INFORMATIVE: Party Wall Act

The applicant's attention is drawn to the Party Wall Act 1996 which sets out requirements for notice to be given to relevant adjoining owners of intended works on a shared wall, on a boundary or if excavations are to be carried out near a neighbouring building.

INFORMATIVE: Land Ownership

The applicant is advised that this planning permission does not convey the right to enter onto or build on land not within his ownership.

INFORMATIVE: Hours of Construction Work

The applicant is advised that under the Control of Pollution Act 1974, construction work which will be audible at the site boundary will be restricted to the following hours:-8.00am - 6.00pm Monday to Friday
8.00am - 1.00pm Saturday
and not at all on Sundays and Bank Holidays.

INFORMATIVE : Community Infrastructure Levy

The applicant is advised that the proposed development will be liable for the Mayor of London and Haringey CIL. Based on the information given on the plans, the Mayoral CIL charge will be £12,006.30 (186sqm x £64.55) and the Haringey CIL charge will be £73,213.32 (186sqm x £393.62 (Indexation included)). This will be collected by Haringey after/should the scheme is/be implemented and could be subject to surcharges for failure to assume liability, for failure to submit a commencement notice and/or for late payment, and subject to indexation in line with the construction costs index.

- 1 You can find advice in regard to your rights of appeal at:
<https://www.gov.uk/appeal-planning-decision>.

- 2 This notice relates solely to a planning decision and does not purport to convey any approval or consent which may be required under the Building Regulations or any other statutory purpose.
If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal.
- 3 For more information about making a Building Regulations application, please contact Haringey Council Building Control Team by email building.control@haringey.gov.uk, telephone 020 8489 5504, or see our website at www.haringey.gov.uk/buildingcontrol.
