Site

The two Lime trees, as marked on the plan, are situated in the front garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

2 x Limes - Crown reduce back to previous pollard points (approx. 3-3.5m height and 2-2.5m spread)

Maintenance works in line with good Arboricultural practice

Issues

I hold no objections to the proposed reasonable repeat works.

The specification is within good arboricultural practice and husbandry.

Limes generally respond well to pollarding regimes.

Recommendation

No Objection
