Site

The trees are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

Reduce height of hazel (T1) by half, taking off up to 3m and remove entire left hand limb. Fell laurel (T2) and allow stump to regrow. Works to allow more light into the garden.

Issues

I hold no objections to the proposed works.

T1 reduction is within good arboricultural practice and husbandry.

Laurel in the wrong setting can be invasive and oppressive. The removal will open the garden.

Recommendation

No Objection
