A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1: Eucalyptus (18m): Tree is becoming too large for garden and getting too close to the house, pollard to 50% of present height to keep tree at a size suitable for its location.

Issues

I hold no objections to the proposed pruning and the reasons given to reduce the tree.

Eucalyptus trees generally respond well to such reduction works.

Recommendation

No Objection
