

Contractor to utilise the car park for welfare, compound, material store, parking etc.

For the purposes of the enabling works, the Contractor is to access the building via the East Wing and not direct from the car park area.

Note: Entrance from car park (G15.D02) provides level access for public / visitors.

Access Route: Contractor to use the East staircase to access the East Wing upper floor levels.

Note: Overlays with public areas and routes.

Access Route: Contractor's entrance via G7 Eastern Hall. Note that this is a fire escape route for museum staff and visitors.

Debris and redundant materials from the enabling and asbestos removal works are to be brought out of the building via the East entrance in sealed bags and carried externally across the front of the building and round to the car park at the West side

Please refer to drawing 7440/130 and 133 for details of proposed opening up works in G6.

It is intended that floorboards are lifted in bands to the full width of the room. As such the room should be fully decanted.

- NOTE
1. This drawing is copyright.
 2. All dimensions must be checked on site before proceeding.
 3. Dimensions of new work are to be adjusted to suit the existing building where necessary. Do not assume that the existing structure or details are plumb, square or level.
 4. The contractor must report any discrepancies to the architect before proceeding.
 5. All products are to be used strictly in accordance with the manufacturer's instructions.
