Application date	26/09/2023	
Tree Inspector	DM	Date: 20 th October 2023

Site

The Lime tree T1, as marked on the plan and seen in the photograph, is situated in the front of the property. It is publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1 Lime Reduce back to previous pruning points.

About 1.5 reduction all over canopy to maintain size for space.

Issues

I hold no objections to the reasonable repeat proposed pruning works to reduce to the most recent previous.

The specification is within good arboricultural practice and husbandry.

Limes generally respond well to such pruning regimes.

Recommendation

No Objection
