Site

The above listed trees T1 & T2 are situated in the front garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T1- Weeping Birch tree- (4m)-raise crown by approximately 1m, prune in branches protruding from top of crown by up to 1m. Shape crown into umbrella shape

T2- Acer tree- (14m)- crown reduction back to most recent pruning points (approximately 3m reduction). Remove low suckers.

Issues

I hold no objections to the reasonable proposed pruning works.

The Acer is a past reduction.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
