RECOMMENDATION:	No Objection	
Application date	29/09/2023	
Tree Inspector	DM	Date: 23 rd October 2023

Site

The Lime trees T6 to T9, as marked on the plan and seen in the photograph, are situated in the front of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

T6:Lime (6m): Re-pollard to previous points removing 1.5m of growth to keep trees at a size suitable for their location

T7: Lime (6m): Re-pollard to previous points removing 1.5m of growth to keep trees at a size suitable for their location

T8: Lime (6m): Re-pollard to previous points removing 1.5m of growth to keep trees at a size suitable for their location

T9: Lime (6m): Re-pollard to previous points removing 1.5m of growth to keep trees at a size suitable for their location

Issues

I hold no objections to the reasonable repeat pollard works of pruning back to the most recent last pruning points.

The specification is within good arboricultural practice and husbandry.

Recommendation

No Objection
