Site

The various trees, as listed above, marked on the plan, and seen in the photograph are situated in the communal grounds of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

G1 4 Lime trees, mature, reduce height by 2-3 M and lateral growth by 2 M back into most recent previous pruning points, leaving no furnishings

T2 Silver Birch, reduce height by 2 M and lateral growth by 1 M approx

G4 2 London Planes, reduce height by 2-3 M and laterals growth by 2 M into most recent pruning points, leaving no furnishings.

Issues

I hold no objections to the reasonable pruning works.

The Limes are past reductions and Limes, along with London Plane trees, generally respond well to such reductions.

T2 has limited public views and has out grown its surroundings.

Recommendation

No Objection
