Site

The Fig tree, as marked on the plan, is situated in the front garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

The fig tree in the front of the property crown reduction 10% and thin out 10%, to allow more light into the garden.

Issues

I hold no objections to the proposed pruning works.

The specification is within good arboricultural practice and husbandry.

Figs with good vigour and vitality generally respond well to such pruning.

Recommendation

No Objection
