| <b>Application date</b> | 07/06/2023          |                                            |
| <b>Tree Inspector</b>   | DM                  | <b>Date:</b> 11 <sup>th</sup> October 2023 |

## **Site**

The various trees listed above, and marked on the plan and seen in the photographs within the tree survey report, are situated in the rear garden of the property. They are not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Highgate Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

## **Proposal**

Tree works proposed.

As Per Report

G14 - Sycamore

Sever Ivy and remove to a height of 2m to allow for a full inspection.

T12 - Common Beech

Sever Ivy and remove to a height of 2m to allow for a full inspection.

G5 - White Willow

Sever and remove a 300mm section to allow for it to naturally die back.

T1 - Sycamore

Sever and remove a 300mm section to allow for it to naturally die back.

T4 - Common Elder

Fell to ground level.

T6 - Sycamore

Sever and remove a 300mm section to allow for it to naturally die back.

T15 - Sycamore

Sever and remove a 300mm section to allow for it to naturally die back.

T16 - Common Oak

Sever and remove a 300mm section to allow for it to naturally die back.

T2 - Sycamore

Reduce crown back to previous pruning points leaving the smaller growth to retain foliage.

T3 - Common Ash

Reduce crown back to previous pruning points leaving the smaller growth to retain foliage.

### **Issues**

I hold no objections to the reasonable proposed pruning works.

The applicant has confirmed girdling ivy only.

The elder is low grade and the reductions are within good arboricultural practice and husbandry.

### **Recommendation**

**No Objection**
