

PROTECTED TREE REPORT (TREE WORKS)

Haringey Council, L4,
Alexandra House, Station
Road N22 7TY

Application number	HGY/2023/2398
Application type	Conservation Area Notification
Site Address:	Caretakers Flat, Fortismere School South Wing, Tetherdown, Hornsey, London, N10 1NS
Proposal	TREE: TG9 (Sixth Form) 1No Lime & 8 No Sycamore Reduce and shape crown(s) by 3-4m, cutting back to a side branch and leaving a flowing branch line without stumps. Remove basal and epicormic growth to crown break. Shorten back overhang to properties at rear and adjacent building. Sever ivy and remove to crown break. TREE: TG1 (Swimming pool) Remove (Fell) scrub growth to ground level and poison stumps. Strim down bramble and light vegetation Please find tree survey attached - reasons - tree maintenance / best practice. (The remaining works do not need notice to or permission from the Council, as the trees in question are neither within a Conservation Area nor protected by TPOs).

RECOMMENDATION:	No Objection	
Application date	06/09/2023	
Tree Inspector	DM	Date: 12 th October 2023

Site

The various trees that have been listed above, and as seen in the photographs and on a plan, are situated in the grounds of the school making them publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is also within the Fortis Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed.

TREE: TG9 (Sixth Form) 1 No Lime & 8 No Sycamore

Reduce and shape crown(s) by 3-4m, cutting back to a side branch and leaving a flowing branch line without stumps. Remove basal and epicormic growth to crown break. Shorten back overhang to properties at rear and adjacent building. Sever ivy and remove to crown break.

TREE: TG1 (Swimming pool)

Remove (Fell) scrub growth to ground level and poison stumps. Strim down bramble and light vegetation

Please find tree survey attached - reasons - tree maintenance / best practice.

(The remaining works do not need notice to or permission from the Council, as the trees in question are neither within a Conservation Area nor protected by TPOs).

Issues

I hold no objections to the reasonable proposed pruning works that have been highlighted in the tree survey.

The applicant has confirmed the specification above is the correct specification than that cited slightly different within the report.

The group of Sycamores and Lime are closely bunched. The overall reductions will reduce weight and benefit the tightly packed group.

TG1 is the treatment of low-grade scrub.

Recommendation

No Objection
